

Hiring software engineer as easy as calling a taxi.

# Atef Rihane

## Full Stack Developer

### SUMMARY

An enthusiast web developer with strong background in building, maintaining extensible web apps

### SKILLS

<b>Main Technical Skills</b>	Laravel
------------------------------	---------

During my professional journey, I have accumulated a wealth of experience in the field of web development spanning over four years. Throughout this time, I have had the opportunity to work on a diverse range of projects, which have helped me refine my skills and broaden my understanding of various technologies and frameworks. These projects have encompassed web applications, e-commerce platforms, SaaS and content management systems, where I have contributed to both frontend and backend development.

In terms of my education, I hold a Bachelor's degree in Computer Science, which has provided me with a solid foundation in programming concepts, algorithms, and software development principles. Building on this knowledge, I am currently pursuing a Master's degree in Software Engineering, further honing my expertise in areas such as software design patterns, software testing, and project management
