Artsem M.
Senior Senior Software Engineer

SUMMARY

- Senior Software Engineer with 10+ years of experience in backend development, specializing in Magento and PrestaShop platforms.
- Proficient in PHP frameworks such as Symfony and Zend, with expertise in Magento 2.x CE & EE and PrestaShop 1.7.
- Skilled in JavaScript (Prototype, jQuery/UI, Knockout, React), CSS preprocessors (LESS, SCSS), and HTML (Bootstrap, Smarty).
- Experienced in working with cache systems like Varnish and Memcache, as well as databases like MySQL, Redis, and MemcacheDB.
- Familiar with web servers Apache and Nginx, version control systems Git (BitBucket, GitHub, GitLab), and CI/CD tools like GitLab CI and Bitbucket Pipelines.
- Proficient in project management systems such as Jira, Trello, Youtrack, and Redmine.
- Certified Adobe and Zend developer, with a Bachelor of Science in Information Technology from Belarusian National Technical University.

Web/App Servers, Middleware	Apache HTTP Server, Nginx, Varnish
Collaboration, Task & Issue Tracking	Atlassian Trello, Redmine, YouTrack
Version Control	BitBucket, Git, GitHub, GitLab

Deployment, CI/CD & Administration	GitLab CI
Operating Systems	Linux, macOS, Windows
Platforms	Magento, Magento 2, prestashop
Third Party Tools / IDEs / SDK / Services	PhpStorm
QA, Test Automation, Security	PHPUnit, Selenium
Other Technical Skills	Debugging tools, IDE, Jira DB

WORK EXPERIENCE

Senior Software Engineer, OCT 2015 – PRESENT

Duration: OCT 2015 – PRESENT
Summary: Backend development, ERP integration, Symfony development, Payment integration, Custom extension development, Server architecture planning, Unit and Integration testing
Responsibilities: Senior Software Engineer
Technologies: PHP, Magento, PrestaShop, Symfony, PhpUnit

Software Engineer, FEB 2010 – OCT 2015

Duration: FEB 2010 – OCT 2015
Summary: Working on PHP Ecommerce projects, Development and implementation of Symfony-based microservice for shipping tracking, Integration of shipping and payment services via custom API, Bug-fixing
Responsibilities: Software Engineer
Technologies: PHP, Symfony

Magento development, Denmark

Duration: Ongoing
Summary: Magento development, Development of a configuration tool that makes drawing of custom products and calculates their price, Development of Symfony-based microservices, Integration with AWS S3 systems, Order page customization, Product page customization, Ongoing website development
Responsibilities: Vinduesgrossisten — Denmark
Technologies: Magento, Symfony, AWS S3

Magento development, USA

Duration: Ongoing
Summary: Magento development, Import module development for Google Sheets synchronization with Magento, Site search customization, Ongoing support, Bug fixing
Responsibilities: NDA — USA
Technologies: Magento, Google Sheets

Magento support, France

Duration: Ongoing
Summary: Magento support, SQL optimization
Responsibilities: Tecmagex — France
Technologies: Magento

Magento 2 migration, United States

Duration: Ongoing
Summary: Magento 2 migration, RetailOps EPR system integration, Magento speed & optimization, Catalog migration using Delta to import only attribute differences with the possibility to withdraw implemented changes
Responsibilities: Karmaloop — United States
Technologies: Magento, RetailOps

Magento 2 migration, United States

Duration: Ongoing
Summary: Magento 2 migration, RetailOps integration, UPS and USPS shipping systems integration, Nextopia search system integration
Responsibilities: PLNDR — United States
Technologies: Magento, RetailOps, UPS, USPS, Nextopia

EDUCATION

- **Bachelor of Science in Information Technology**
  Belarusian National Technical University

CERTIFICATION

- **Adobe certified developer**
- **Zend-certified developer**
