Artem Busyhin
Senior Senior Front-end Engineer | React Engineer

SUMMARY

Seasoned Front-end Engineer with over 6 years of experience and proficiency in cutting-edge technologies such as React, Redux, and Next.js. Specializes in React with TypeScript for building robust and maintainable applications. Skilled in engineering dynamic user interfaces, achieving significant performance optimizations and codebase enhancements. Pioneered comprehensive testing strategies to ensure high-quality software and maintain reliability across deployments. Demonstrates proven expertise in responsive design and cloud-based solutions, with recent mastery in Next.js 15 Server Components. Experienced in collaborating on international remote projects, consistently contributing to improved user engagement and overall software performance. Holds key certifications, including Next.js 15 & React and AWS Cloud Practitioner, reflecting a commitment to continuous learning and professional growth. Combines strong technical acumen with essential soft skills such as problem-solving, communication, and teamwork—making this engineer an excellent candidate for advanced Front-end roles.

TECHNICAL SKILLS

Main Technical Skills	React (6 yr.), CI/CD (3 yr.), JavaScript (6 yr.), TypeScript (6 yr.), Next.js (2 yr.)
Programming Languages	JavaScript (6 yr.), TypeScript (6 yr.)
JavaScript Frameworks	Next.js (2 yr.), Node.js, React (6 yr.)
JavaScript Libraries and Tools	React Context, React Hooks, Redux, Redux-Saga (6 yr.), Redux-toolkit, Styled components, Zod, Zustand
UI Frameworks, Libraries, and Browsers	Ant Design, CSS (6 yr.), HTML5 (6 yr.), Material UI, Styled components, Tailwind CSS
Cloud Platforms, Services & Computing	GCP
Deployment, CI/CD & Administration	CI/CD (3 yr.)
Methodologies, Paradigms and Patterns	CRUD (1 yr.)
Virtualization, Containers and Orchestration	Docker
Version Control	Git (6 yr.), Github Actions
QA, Test Automation, Security	Jest
UI/UX/Wireframing	Responsive Design (4 yr.)

SDK / API and Integrations	RESTful API (1 yr.), Shopify API
Other Technical Skills	Performance Optimization (4 yr.)

Senior Front-end Engineer, Timesact

Duration: Feb 2020 – Oct 2024

Summary:

Developed and led the migration to React for Shopify's pre-order app, Timesact, resulting in significant performance improvements.

Responsibilities:

- Led the migration of the app to React
- Automated deployments using CI/CD pipelines
- Achieved 75% test coverage
- Implemented key project features
- Developed the admin panel for Shopify accounts

Technologies:

React, React Context, React Hooks, GitHub Actions, Shopify, Google Cloud Platform, Material UI, Styled Components, React Hook Form, Framer Motion

Senior Front-end Engineer, Shopify Instagram Integration

Summary:

Built a Shopify app for Instagram integration with AI-powered content generation, leading to a 40% increase in user engagement.

Responsibilities:

- Developed the project from scratch
- Implemented account registration and management
- Built AI-driven content generation functionality

Technologies:

React, Redux, Next.js, Shopify, Firestore, Vertex AI, Tailwind CSS, React Hook Form, Zod

Senior Front-end Engineer, Swan Bitcoin

Summary:

Contributed to the development of core functionalities and security features for Swan Bitcoin, a platform for automated Bitcoin investing.

Responsibilities:

- Participated in core feature development
- Implemented multi-factor authentication
- Developed the admin panel for user account management

Technologies:

React, Redux, Redux-Thunk, XState, Theme UI, Emotion, Formik, Yup, React Spring

Senior Front-end Engineer, PurposeLab / Greenspace

Summary:

Enhanced sales tracking and compliance reporting for cannabis retailers through the PurposeLab/Greenspace platform.

Responsibilities:

- Developed sales tracking features
- Implemented routing, tracking, and management functionalities
- Contributed to backend feature development

Technologies:

React, Redux, Redux-Saga, React DnD, Ant Design, Formik, Yup, Moment.js, Chart.js, React Testing Library

Front-end Engineer, SWEET.TV

Duration: Jul 2019 – Jan 2020

Summary:

Migrated and refactored an online streaming service to React, significantly improving performance and user experience.

Responsibilities:

- Participated in migrating the project to React
- Refactored a large legacy codebase
- Optimized UI/UX design for better performance

Technologies:

React, Redux, Redux-Thunk, webOS, Tizen OS, Docker, RESTful APIs

Fullstack Engineer, Legal Drug Marketplace

Duration: Jul 2018 – Jun 2019

Summary:

Contributed to the successful launch of a legal drug marketplace, focusing on data security and a robust feature set.

Responsibilities:

- Participated in end-to-end development, from inception to production
- Implemented CRUD operations and authentication mechanisms
- Developed and deployed frontend and backend features

Technologies:

React, Redux, Redux-Saga, PHP, Laravel, Docker, RESTful APIs
