

Amr Kamal Ali Khalil

Senior Senior Software Engineer

SUMMARY

Seasoned software engineer with 10+ years of diversified experience in mobile and software development, including hands-on expertise with Flutter, Xamarin Forms, and .NET technologies. Proven track record of leading end-to-end mobile app development, implementing modern design to responsive UI code, and maintaining exemplary code quality standards. Acknowledged for mentoring junior developers, streamlining deployment processes, and effectively participating in SDLC in agile environments. Proficient in both Arabic and English, with a substantial history of working with international teams and clients.

TECHNICAL SKILLS

Main Technical Skills	C/C++/C# (6 yr.), Facebook Auth (1 yr.), Xamarin (3 yr.), .NET Maui, FDD (6 yr.)
UI Frameworks, Libraries, and Browsers	Ant Design
C++ Libraries and Tools	C/C++/C# (6 yr.)
Amazon Web Services	AWS CodeDeploy
Methodologies, Paradigms and Patterns	Agile, FDD (6 yr.)
SDK / API and Integrations	Facebook Auth (1 yr.)
Soft Skills	Mentor Aptitude
UI/UX/Wireframing	User Interviews
iOS Libraries and Tools	Xamarin (3 yr.)

WORK EXPERIENCE

Software Developer (.NET - Android), iOS and Android Application Development

Duration: January 2017 - October 2017 (10 months)

Summary:

- Developed and maintained iOS and Android applications using
- NET and Android technologies

Responsibilities: Creating well-designed, testable, and efficient code.

Technologies: C#, .Net Development, Software Development, Database

Xamarin Developer Trainee, Mobile Development Training

Duration: October 2017 - January 2018 (4 months)

Summary: Mobile development activities with Xamarin, including understanding design concepts for user-friendly applications.

Responsibilities: Developing and maintaining iOS and Android applications, collaborating with cross-functional teams, and delivering new features.

Technologies: Xamarin

Xamarin Developer, iOS and Android Application Development

Duration: January 2018 - August 2019 (1 year 8 months)

Summary: Participated in development of iOS and Android applications using Xamarin.

Responsibilities: Developing and maintaining iOS and Android applications and collaborating with teams to define and deliver new features.

Technologies: Xamarin

Xamarin Developer, Mobile Application Development

Duration: April 2019 - October 2019 (7 months)

Summary: Developing code for mobile applications using Xamarin and ensuring high code quality standards.

Responsibilities: Creating well-designed, testable, efficient code and translating designs into high-quality responsive UI code.

Technologies: Xamarin

Senior Software Engineer, Selah El Telmeez App Development

Duration: September 2019 - August 2022 (3 years)

Summary: Led the development of the Selah El Telmeez mobile app and conducted technical interviews for potential mobile developers.

Responsibilities: Designing and developing mobile applications from scratch and translating designs into high-quality responsive UI code.

Technologies: Mobile Development

Senior Software Engineer, Freelance Software Engineering

Duration: May 2021 - October 2022 (1 year 6 months)

Summary: Carried out freelancing projects involving code development and UI construction.

Responsibilities: Creating efficient code and translating designs into high-quality responsive UI code.

Technologies: Software Development

Senior Software Engineer, KIB Retail Application Development

Duration: October 2022 - July 2023 (9 months)

Summary: Develop and maintain KIB Retail mobile application using Flutter framework.

Responsibilities: Developing and maintaining high-quality mobile applications and ensuring code quality standards.

Technologies: Flutter

Senior Software Engineer, Mobile Application Development

Duration: October 2022 - September 2023 (1 year)

Summary: End-to-end development of mobile applications utilizing Flutter framework including design and deployment.

Responsibilities: End-to-end mobile application development, bug resolution, mentorship, and deployment.

Technologies: Flutter, Adobe XD, Figma

Senior Software Engineer, Current Employment

Duration: September 2023 - Present

Summary: Current role focusing on software engineering in a senior capacity.

Responsibilities: Details of projects and responsibilities in this role have not been specified.
