Max R.
Senior Senior .NET Engineer

SUMMARY

- 5+ years of commercial experience with C# and .NET - Experience with .NET Core and .NET Framework - Experience with MS SQL Server, MongoDB, Cosmos DB - RabbitMQ, Redis - Worked with Stripe, AWS (SNS, SQS, S3, EFS, Lambda, EC2), Azure(Storage, Queues), Hangfire - Knowledge of OOP and SOLID principles - Basics of HTML, CSS, Javascript, JQuery - Familiar with Docker and Kubernetes; - Intermediate English - Available ASAP

TECHNICAL SKILLS

Programming Languages	C#, JavaScript, TypeScript
JavaScript Frameworks	Angular, AngularJS, jQuery
.NET Platform	ASP.NET Core Framework, ASP.NET Web API, Hangfire, Identity Server, .NET, SignalR
JavaScript Libraries and Tools	Webpack
Databases & Management Systems / ORM	Cosmos DB, Microsoft SQL Server, MongoDB, Raven DB, Redis, Redis Cache
UI Frameworks, Libraries, and Browsers	CSS, HTML, jQuery
Cloud Platforms, Services & Computing	AWS, Azure
Amazon Web Services	AWS EC2, AWS ECR, AWS ECS (Amazon Elastic Container Service), AWS EFS (Amazon Elastic File System), AWS ELB (Amazon Elastic Load Balancer), AWS Lambda, AWS Pipeline, AWS RDS (Amazon Relational Database Service), AWS Route 53, AWS S3, AWS SNS, AWS SQS
Azure Cloud Services	Azure Blob Storage, Azure Container Registry, Azure Key Vault, Azure Queues, Azure Service Fabric, Azure Storage, Azure Tables, Azure Table Storage, Cosmos DB
SDK / API and Integrations	ASP.NET Web API, Stripe
QA, Test Automation, Security	Autho
Virtualization, Containers and Orchestration	Docker, Kubernetes
	Jenkins

Deployment, CI/CD & Administration	
Methodologies, Paradigms and Patterns	microservices architecture, OOP, SOLID principles
Message/Queue/Task Brokers	RabbitMQ
Other Technical Skills	Kusto, Loggly, Multithreading, Onion architecture

EXPERIENCE

Senior .NET Engineer

March 2021 – now

.NET Engineer

February 2020 – March 2021

.NET Engineer

April 2016 – February 2020

PROJECTS

NDA

Description: System allows customers to quickly build line-of-business applications in areas of Sales, Marketing, Customer Service and allows businesses to transform the way they build and nurture customer relationships.
Technologies: Cosmos DB, ASP.NET Core, Blob storage, Azure Service Fabric, KeyVault, Redis, Pipelines/Releases, Kusto

Education Platform

Technologies: ASP.NET Core, Microservices, Azure Cosmos DB, Table Storage, Blob Storage, Container Registry, Docker, Angular 7, Identity Server

System That Allows to Set Appointment with a Doctor

Technologies: ASP.NET Core, Angular, AWS ECS, ECR, Application Load Balancer, Route53, S3, RDS, AWS Pipeline

Booking Platform for Travelers

Technologies: SignalR, ASP.NET Web API, MS SQL, AngularJs, Typescript, Webpack, Hangfire, Multithreading, Redis Cache, CI Jenkins

System that Allows to Connect and Monitor Your Resources from Azure Account

Technologies: Raven DB, Loggly, Onion architecture, AngularJs, Azure Tables, Azure Blob Storage, ASP.NET Web API, Autho
