EXPERIENCE

Full-Stack Developer, Self-employed, Grand Rapids, Michigan, United States

MAY 2022 - PRESENT

Front-End Lead, Cyboticx, Konotop, Sumy, Ukraine

NOV 2021 - MAY 2022
Description: Based on the contract, I worked as a full-stack developer in this Company for six months. The project manager was from the US. I built the scheduling board for the company website with Express, MongoDB, React, Typescript, Material-UI, and the React-DND library. After publishing the final version of the scheduling board, I left the company since the contract was over and the salary was not enough for me.

Front-End Developer Intern, BTL Group of companies, Kyiv, Kyiv City, Ukraine

OCT 2019 - SEP 2021
Description: My role was front-end developer and I contributed to updating the company websites. I enjoyed working at this company, meanwhile, I expanded my front-end development skills.

Front-End Developer Intern, Bronirovka.UA, Kyiv, Kyiv City, Ukraine

AUG 2017 - JUL 2019
Description: I started my first job with this company. I spent lots of time getting this job. With this company, I have experienced lots of user experiences and implemented them with React and React Native.

EDUCATION

Bachelor's Degree in Computer Science, Taras Shevchenko National University
SEP 2006 - MAY 2010
