Vhitesh More
Middle Software Engineer

SUMMARY

Seasoned software engineer with a Bachelor's degree in Computer Engineering and 4+ years of experience in app development. Proficient in Dart, Swift, Obj-C, Java, and skilled in MySQL. Delivered a patient aid app using Flutter & iOS with coreML integration. Played pivotal roles in agrotech projects, contributing to social media feed functionality and offline accessibility. Expertise extends to Flutter plugin development, enhancing data syncing, and deep linking. Solid background in SDLC, agile methodologies, and CI-CD practices, leading to efficient and effective project execution.

TECHNICAL SKILLS

Main Technical Skills	iOS (4 yr.), Android APIs (4 yr.), Dart
Programming Languages	Dart
Android Libraries and Tools	Android APIs (4 yr.)
Mobile Frameworks and Libraries	Flutter
SDK / API and Integrations	Android APIs (4 yr.), API
Operating Systems	iOS (4 yr.)

WORK EXPERIENCE

Software Engineer, Inhaler Dosage & Schedule App

Duration: 07/2020 - Present
Summary: Developing an app that helps patients manage their inhaler dosage and schedule.
Responsibilities: Sole developer responsible for the entire app development lifecycle.
Technologies: Flutter, iOS, CoreML

Software Engineer, Social Networking App Integration

Duration: 07/2020 - Present
Summary: Collaboration on a comprehensive social networking application with various features.

Responsibilities: Assisted in building an app integrating social networking features such as maps, chat, media editing & upload.
Technologies: Flutter, Firebase, Rest API

Software Engineer, Agrotech Domain Apps (NurtureFarm & FieldXpress)

Duration: 07/2020 - Present
Summary: Development of agricultural technology applications for farmers.
Responsibilities: Contributed to agrotech apps including feature development such as insurance scheme signups, crop doctor, and social media feed.
Technologies: Server-side UI rendering, Offline functionality

Software Engineer, Flutter Plugin Development

Duration: 07/2020 - Present
Summary: Creation and maintenance of Flutter plugins to enhance application functionality.
Responsibilities: Developed plugins for offline data syncing, UI updates from server, and code generation to optimize app structures.
Technologies: Flutter, Custom UI Modules, Deep Linking

EDUCATION

- **Bachelor of Engineering - Computer Engineering**
  Completed with a 68% aggregate.
  06/2016 - 11/2020
