

Mazen Ahmed

Junior Frontend Developer

SUMMARY

- Frontend Developer with 1+ year of experience building SaaS platforms and dashboards using React, Next.js, TypeScript, and Tailwind CSS.
- Skilled in designing PostgreSQL schemas and REST APIs with FastAPI and Prisma ORM, enabling full-stack feature delivery.
- Implemented advanced state management using React Query, Zustand, and Redux Toolkit to optimize data flow and UI responsiveness.
- Developed secure authentication systems with NextAuth.js, including OAuth, email verification, and protected routes.
- Experienced in microservices architecture, real-time data pipelines, and cloud storage integration, demonstrated in projects using Kafka, Docker, and Google Cloud Storage.

TECHNICAL SKILLS

Main Technical Skills	TypeScript (1 yr.), React (1 yr.), Next.js (1 yr.), Python
Programming Languages	JavaScript, Python, TypeScript (1 yr.)
Python Frameworks	FastAPI
JavaScript Frameworks	Next.js (1 yr.), React (1 yr.)
JavaScript Libraries and Tools	React Context, React Query, Redux-toolkit, Zustand
Databases & Management Systems / ORM	MongoDB, MySQL, Prisma ORM
UI Frameworks, Libraries, and Browsers	CSS3, HTML5, Material UI, ShadCN, Tailwind CSS, Tailwind UI
Google Cloud Platform	Google Cloud Storage
SDK / API and Integrations	Context API, FastAPI, RESTful API
Virtualization, Containers and Orchestration	Docker
Version Control	Git, GitHub
QA, Test Automation, Security	Jest, React Testing Library
Other Technical Skills	GCS, shadcn/ui

WORK EXPERIENCE

Frontend Developer - RabetLink (Remote)

Duration: 06/2025 – 11/2025

Summary: RabetLink is a production link-in-bio SaaS platform that allows users to create and manage personalized profile links with multiple sections

Responsibilities:

- Built the frontend using React, Next.js, TypeScript, and Tailwind CSS.
- Implemented drag-and-drop reordering with optimistic UI updates for profile sections, enhancing user experience by reducing perceived update latency by over 70%.
- Designed PostgreSQL schema and developed REST APIs for authentication, user management, media handling, and core workflows using Prisma ORM.
- Implemented authentication flows including OAuth providers with NextAuth.js, email verification, password reset, and route protection.
- Managed asynchronous data and reduced redundant network requests using React Query and Zustand.

Technologies: React, Next.js, TypeScript, Tailwind CSS, PostgreSQL, Prisma ORM, REST APIs, NextAuth.js, React Query, Zustand

Frontend Developer - OVIOO (Remote)

Duration: 12/2024 – 03/2025

Summary: OVIOO is a B2B SaaS dashboard platform designed to facilitate agency and client workflows through multi-step page flows and secure access control.

Responsibilities:

- Developed the dashboard frontend using React, Next.js, TypeScript, Tailwind CSS, and Material UI.
- Managed state across multi-step workflows using Redux Toolkit for predictable data handling.
- Implemented route-level access control with NextAuth.js middleware to secure private dashboard pages.
- Integrated REST APIs to support dynamic dashboard views for both client and agency workflows.
- Integrated Google Cloud Storage for secure media uploads and asset management.

Technologies: React, Next.js, TypeScript, Tailwind CSS, Material UI, Redux Toolkit, NextAuth.js, REST APIs, Google Cloud Storage

EDUCATION

- **Bachelor's degree in Computer Science**
El Shorouk Academy Cairo, Egypt
